

C•CURE IQ Security Operations Intelligence Platform

Extend Your C•CURE IQ Value From Access Control to Unified Security Intelligence.

Security Intelligence

Data-driven insights in convenient dashboard style reporting, to prioritize high-impact events, enhancing safety and operational efficiency.

Unified Platform

Deliver a modern, intuitive, and extensible video and access platform—unifying video with access and security operations to drive faster response, simplified workflows, and long-term flexibility.

Fast Video Deployment

Embedded VMS capabilities eliminate bolt-ons, enabling faster deployment, immediate usability, and lower operational friction from day one.

Unification Simplified

Automatically access C•CURE IQ 3.20 video whether using VideoEdge or third-party VMS, and unlock the advantage of free Illustra camera licenses with VideoEdge NVR's, accelerating ROI and simplifying your path to unification

Operator-Centric

Intuitive UI is designed around event-driven workflows, streamlining monitoring, investigation and response, reducing operator fatigue and improving consistency across shifts and skill levels.

Future-Ready and Scalable

Protect your investment with an open architecture that integrates easily and adapts to future technologies and evolving security needs
